Bill

I am going to AT&SF to watch them plug and abandon monitor wells and install new monitor wells. On the last two trips we just looked at the site. Gary thought that it may be possible for the PRP to do a PRP removal, I discussed that option with Cathy and she said it is a possibility.

Thanks

What's happening at AT&SF?

I will call the Parish Library again today.. I left her a message but haven't heard back for Delta. Is there a recap from your last two trips to Delta? Did Gary Moore have anything to say about a possible removal?

Thanks  
Bill

Good morning Sandy

My travel projections are as follows:

Date	Site	Estimated Cost	Special Account
Feb 3-4	Delta Shipyard	\$900	No
Mar 3-4	Falcon Refinery	\$900	No
Mar 24-26	AT&SF	\$1200	Yes

Thanks
